Packaging Solutions

www.embalforme.fr -  

Support, Expertise, Flexibility

Because your projects will become ours,

Because you are looking for quality, reactivity, mastered and ecological responsible solutions

Because you are expecting for customized and innovative answers that fit the size of your company

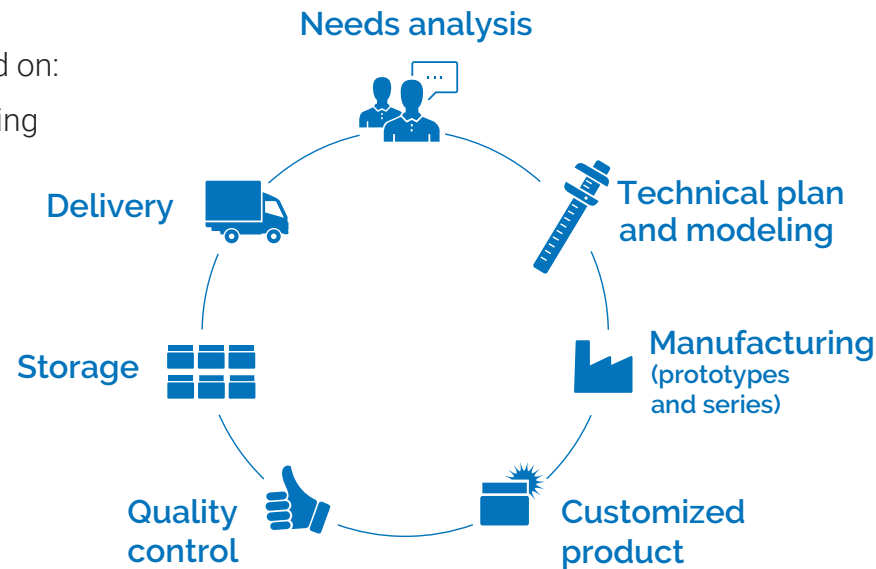

We listen to you and provide you with answers based on:

- With **more than 30 years of experience** in packaging (jars, bottles, tubes and accessories)
- A real **mastery of manufacturing techniques** (glass and plastics) and finishing systems
- A **constant search** of reliable and innovative solutions
- A **knowledge of the qualitative requirements** of cosmetics and parapharmacy
- An **environmental-friendly engagement** to limit waste and integrate the **circular economy**.

Full packaging solutions

We propose:

- **Small and large series**
- **Phased deliveries** if needed

From needs analysis to delivery, from design to manufacturing, the Embalforme group offers you a solution combining creativity and cost control to realize your packaging ideas.

PACKAGING VERRE

PREMIUM

Collection

A thick bottom, a signature of luxury

The beautiful transparency, the dense bottom, the magnifying effect and the qualitative weight of this **PREMIUM** Collection position it very high-end.

Jar	Bottle	ml	GCM	mm	mm	g	Reference
•		50	GCM1 60/400	44	68	200	pot-pre50
•		100	GCM1 60/400	53	63	180	pot-pre100

	•	30	GCM1 24/410	82	35.5	85	fla-pre30

OMEGA

Refillable, compostable and customisable

Be part of an ethical approach and limit your use of packaging by choosing the **OMEGA** refillable solution: a PCR glass jar with a biosourced and interchangeable cup. With no added glue or other elements, the compostable refill can be unclipped and reclipped to promote an economical and environmentally friendly purchase.

Refillable jar	Single refill	ml	GCM	mm	mm	g	Reference
•		100	GCM1 60/400	57	67	179	por-ome50

•		50	GCM1 58/400	41.6	61	130	por-ome30
	•	30		28	43	10	rec-ome30

PLUME

Collection

As light as a feather !

Manufactured from 40% PCR glass, the feather **PLUME** bottle is made from lightweight glass. The small amount of material used makes its production and transport less energy-consuming and reduces CO2 emissions. Enhance it by finishing it to your liking.

Jar	Bottle	ml	GCM	mm	mm	g	Reference
•		50	GCM1 51/400	53	40	57	pot-plu50
	•	50	GCM1 20/410	102	34	78	fla-plu50
	•	30	GCM1 20/410	80	31	52	fla-plu30

ACCESSORIES

For a full product

Whatever the jar or bottle selected, we have your capping solution.

FOR THE JARS

To finalise your jar, we offer urea, polypropylene, aluminium sheathed lids.

Complete with a spatula and a seal.

FOR THE BOTTLES

Cap, pump or dropper? metallic or not? With teat or push button, the droppers allow a precise dosage of your formula.

FINISHING

It's all in the details !

In small or large quantities, we offer finishing according to your expectations.

- **The frosting** is a glass attack process to decrease the transparent effect and make it more satiny, opalescent.
- **Lacquering** on the glass enriches its appearance by a spray system. The spectrum of colors (gloss, matt, degraded, pearly) is very large.
- **Silkscreen** sprays your decorations by depositing the colors one after the other through silk screens (stencils) on glass or plastic jars and bottles.
- **Pad printing**, applied by an ink pad system, avoids printing difficulties.
- **Hot stamping** is the fixing of a gold, silver or metallic ribbon in all colors. Fixing by heat..
- **The metallization**, carried out under vacuum by spraying, gives to glass and plastic supports a rewarding metallic appearance. It is easily used for capping systems.
- **Aluminium sheathed**: thanks to the thickness of galvanised and polished aluminium, the sheathed cap and droppers can finalize your most luxurious products.
- **Logo engraving**, applied on a PP or aluminium sheathed cap, identifies your brand immediately and on a sustainable way.
